

CALL FOR PAPERS

ICQEPO 2020
Jul 13-14, 2020
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQEPO 2020 : International Conference on Quality Engineering and Process Optimization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quality Engineering and Process Optimization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quality engineering
Advances in quality engineering
Knowledge management
Collaborative processes
Experimental design and analysis
Measurement system analysis
Process modeling
Product and process optimization

Quality control and process
monitoring
Regression and reliability
Response surface methodology
Robust parameter design
Six sigma method enhancement
Statistical engineering
Test and evaluation techniques
