

CALL FOR PAPERS

ICRWLEP 2020
Jul 13-14, 2020
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRWLEP 2020 : International Conference on Retaining Walls and Lateral Earth Pressures is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Retaining Walls and Lateral Earth Pressures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Retaining wall	
Retaining wall design	
General requirements	
Retaining wall and slope stabilization	
Lateral earth pressures and retaining walls	
Types of retaining wall	
Subsurface exploration and testing	
Soil, rock, and other problem conditions	
Laboratory testing	
Gravity	
Cantilevered	
Sheet piling	
Bored pile	
	Anchored
	Alternative retaining techniques
	Soil nailing
	Soil-strengthened
	Gabion meshes
	Mechanical stabilization
	Gravity walls
	Semi gravity retaining wall
	Flexible walls
	Special type of retaining walls
	Concrete masonry retaining walls
	Segmental retaining walls
	Wall capacity
