

CALL FOR PAPERS

ICSRA 2020
Jul 13-14, 2020
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSRA 2020 : International Conference on Surgical Robotics and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Surgical Robotics and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Surgical robotics	Fundoplication
Robotics in general surgery	Heller myotomy
Robot-assisted surgery	Bariatric surgery
Computer-assisted surgery	Colorectal surgery
Surgeon assistants	Endocrine surgery
Teleoperator era	Remote telesurgery
Telerobotic surgical systems	Augmented reality surgery
Advantages and disadvantages of telerobotic surgical systems	Miniaturization
Current applications of robotics	Automation
Cholecystectomy
