

CALL FOR PAPERS

ICSTE 2020
Jul 13-14, 2020
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSTE 2020 : International Conference on Sustainable Transportation Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Transportation Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable transportation	Transportation and social sustainability
Transportation engineering	Carbon neutral fuel
Principles and visions of sustainable transportation	Electric and Green vehicles
Advanced transportation engineering and inventions	Plug-in hybrid
Sustainable transportation, common and current problems	Road traffic safety
Sustainable transportation systems, policies, and technologies	Sustainable transport
Sustainable transportation infrastructure	Transportation demand management
Vehicle operations	Sustainable freight and delivery systems
Sustainable transportation and maintenance	Vehicle-free city planning
Artificial transportation and sustainability	Pedestrian and bicycle friendly design
