

CALL FOR PAPERS

ICAEMAE 2020
Jul 23-24, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEMAE 2020 : International Conference on Algal Ecology and Marine Algal Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Algal Ecology and Marine Algal Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Algal ecology
Algal categories
Relationship to land plants
Morphology and physiology of algae
Symbiotic algae
Algal culturing techniques
Algae in microscopic food webs

Algal ecology in freshwater benthic habitats
Patterns of benthic algae in aquatic ecosystems
Benthic algae and nutrient cycling
Marine algal ecology
Interactions between corals and algae
Climate change impacts on reef algae
