

# CALL FOR PAPERS

**ICAEWM 2020**  
**Jul 23-24, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEWM 2020 : International Conference on Agricultural Engineering and Water Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Engineering and Water Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural engineering and water management

Prevention and solutions to water pollution

Animal production technology

Climate change adaptation

Ecological and environmental engineering

Energy, biomass and biological residues

Environmental restoration

Ergonomics, safety and health

Information technology, automation and precision farming

Post harvest, food and process engineering

Power and machinery

Renewable energy

Rural development

Soil and water engineering

Structures and environmental technologies

Sustainable food systems

Wastewater and stormwater treatment
