

# CALL FOR PAPERS

**ICEEAE 2020**  
**Jul 23-24, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEAE 2020 : International Conference on Environmental Engineering and Acoustical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Engineering and Acoustical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil and environmental systems  
Analysis of semi-rigid connections  
Applied computer vision for civil and environmental systems  
Augmented and virtual reality  
Buckling and stability  
Building design, construction, and operation  
Civil systems, management and surveying  
Computer controlled site instrumentation  
Conceptual design support  
Construction automation and robotics  
Construction systems and management  
Dam systems  
Disaster preparedness, response and recovery

Distributed computing in systems  
Dynamics and earthquake systems  
Energy for building  
Environment and energy  
Environmental modeling  
Environmental systems  
Environmental protection  
Formfinding, topology and structural morphology  
Foundation systems  
Fracture mechanics  
Geographical information systems  
Geotechnical analysis and design  
Ground vibration
