

CALL FOR PAPERS

ICESHA 2020
Jul 23-24, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESHA 2020 : International Conference on Earth-Sheltered House Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Earth-Sheltered House Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Earth-sheltered housing
Earth-sheltered house design and construction
Landscaping for earth-sheltered housing
Energy and building performance
Bermed earth shelter
In-hill earth shelter

Underground earth shelter
Applications of earth shelter
Active and passive solar
Passive annual heat storage
Annualized geo solar
Earth tube ventilation
