

# CALL FOR PAPERS

**ICFEP 2020**  
**Jul 23-24, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFEP 2020 : International Conference on Food Engineering and Packaging is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Food Engineering and Packaging. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Research and development of new foods, biological and pharmaceutical products  
Advances in classical unit operations in engineering applied to food manufacturing  
Developments in heating, chilling and freezing of foods

Development and operation of manufacturing, packaging and distributing systems for drug and food products  
Design and installation of food and pharmaceutical production processes;  
Design and operation of environmentally responsible waste treatment systems  
Marketing and technical support for manufacturing plants
