

CALL FOR PAPERS

ICFPP 2020
Jul 23-24, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFPP 2020 : International Conference on Fertilization and Plant Protection is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fertilization and Plant Protection. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainability of crop production,
processing and consumption
Agricultural biotechnology
Field crops
Land and water management
Technology and sustainable
agriculture best practices
Private and public sectors
collaboration in agriculture
technology development
