

CALL FOR PAPERS

ICMEHIA 2020
Jul 23-24, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEHIA 2020 : International Conference on Microbial Ecology, Human Interactions and Antimicrobials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microbial Ecology, Human Interactions and Antimicrobials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microbial ecology
Microbial population ecology
Population growth
Microbial evolution and diversity
Aquatic microbial ecology and aquatic microbial communities
Bacterial communication on population processes
Population spatial stability

Microbes and the processing of nutrients
Species interactions and processes
Symbiosis and symbiotic relationships
Mutualism and amensalism
Microbial resource management
Environment and human interaction
Antimicrobials
