

CALL FOR PAPERS

ICBNMT 2020
Jul 06-07, 2020
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBNMT 2020 : International Conference on Biosensors, Nanomachines and Molecular Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biosensors, Nanomachines and Molecular Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Principles of electronic biosensors
Biosensors and molecular technologies
Bioelectronics, bioinstrumentation and biosensors
Biosensors for biomarkers in medical diagnostics
Radiation safety and novel radiation based therapeutic agents
Applications of environmental biosensors and bioelectronic devices

Biometric, biosignal processing and analysis
Types of biosensors and their applications
Telemedicine
Biochips and bioinstrumentation
Wireless biomedical sensors
Design of biosensors and their applications
