

CALL FOR PAPERS

ICBEPPD 2020
Jul 16-17, 2020
Stockholm, Sweden

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBEPPD 2020 : International Conference on Biogas Engineering, Production and Plant Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biogas Engineering, Production and Plant Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biogas engineering
Biogas plant design
Biogas production and technologies
Advances in biogas technology
Planning and construction of biogas plants
Biogas generation, purification and bottling development
Biogas science and technology
The production of biogas
Composition of the extracted biogas
Generation of electricity and heat
Feeding biogas into the natural gas grid

Small-scale biogas technologies
Applications and environmental impacts of biogas
Industrial waste biogas
Large scale biogas production and challenges
Biogas technologies
Market potential of biogas reactors
Biogas from agriculture waste
Biogas production from algae
New and possible substrates for biogas production
Measuring and upgrading biogas environment
