

CALL FOR PAPERS

ICBS 2020
Jul 16-17, 2020
Stockholm, Sweden

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBS 2020 : International Conference on Bioremediation and Sustainability is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioremediation and Sustainability. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|------------------------------------|-------------------------------------|
| Bioremediation | Bioremediation of benzene using a |
| Bioremediation engineering | designed and developed partitioning |
| Development of bioremediation | bioreactor |
| Environmental bioremediation | Biodegradation of petroleum |
| technologies | hydrocarbon compounds |
| Bioremediation of soil and water | Bioremediation of heavy metals |
| sources | Bioremediation of agricultural |
| Application of bioremediation on | waste |
| solid waste management | Phytoremediation |
| Bioremediation process | Bioleaching |
| Energy biotransformation | Bio augmentation |
| Environmental variations in field | Genetic engineering approaches |
| Bioremediation of pesticide in | Mycoremediation |
| surface soil treatment | In-situ bioremediation |
| Bioremediation of pesticides using | Ex-situ bioremediation |
| scale up process bioreactors | |
