

CALL FOR PAPERS

ICCCC 2020
Jul 16-17, 2020
Stockholm, Sweden

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCC 2020 : International Conference on Cruise Control Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cruise Control Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Cruise control
- Speed control
- Advances in cruise control systems
- Advantages and disadvantages of cruise control
- Adaptive cruise control systems
- Optimal control in automotive systems
- Measurement uncertainty
- Circuits and systems
- Control systems

- Industrial electronics
- Intelligent transportation systems
- Vehicle control and cruise control
- Cruise control devices
- Controlling the engine and brake
- Sensor data
- Digital signal processing modules
- Microcontroller chips
