

# CALL FOR PAPERS

**ICCSITIS 2020**  
**Jul 16-17, 2020**  
**Stockholm, Sweden**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSITIS 2020 : International Conference on Cyber Security for Internet of Things and IoT Security is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cyber Security for Internet of Things and IoT Security. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cyber security threat models and architectures  
Cryptographic solutions for cyber security  
Human-centric cyber security solutions  
AI-based countermeasures  
Cyber artificial intelligence  
Cyber threat intelligence  
Adversarial machine learning  
Security in online social networks

Forensics of cyber-physical systems  
Machine learning-driven malware analysis  
Cyber security analytics  
Blockchain-based cyber security  
Privacy and trust in the Internet of Things  
Cyber Security at the Edge  
Assessing risk in IoT deployments  
Testbeds for IoT cyber security
