

CALL FOR PAPERS

ICIRES 2020
Jul 16-17, 2020
Stockholm, Sweden

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIRES 2020 : International Conference on Integrated Renewable Energy System is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Integrated Renewable Energy System. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Integrated renewable energy system
Multi- and hybrid-energy systems
Integration of renewable energy systems
Analysis of integrated renewable energy systems
Carbon emissions reduction by increasing whole system energy efficiency
Integrated renewable energy system modelling and simulation
Steady state modelling and simulation of coupled renewable energy systems
Dynamic modelling and simulation of coupled renewable energy systems

Operation and control of the integrated renewable energy system
Operation scheduling/optimization
Control of integrated renewable energy systems
Analysis of the potential to provide flexibility to the electrical power system
Energy performance assessment
Design and expansion planning
Reliability analysis
Modelling tools
