

CALL FOR PAPERS

ICLPPM 2020
Jul 16-17, 2020
Stockholm, Sweden

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLPPM 2020 : International Conference on Light Pollution Prevention and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Light Pollution Prevention and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Light pollution

Light pollution: theory, modelling and measurements

Light pollution and its effect on the environment

Theoretical concepts of modelling light pollution

Numerical tools and simulation experiments

Effects of atmospheric aerosols and obstacles on light pollution

Impact of spectral characteristics of light sources and reflecting surfaces

Observational techniques, data, and products

Design and evaluation of dark sky friendly lighting technologies
