

CALL FOR PAPERS

ICEN 2020
Jul 14-15, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEN 2020 : International Conference on Electrical Networks is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical Networks. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electrical Networks
Electrical Network Theory
Electrical Network Analysis and Design
Submodular Functions and Electrical Networks
Mathematical Modelling and Simulation of Electrical Circuits
Mathematical Aspects of Electrical Network Analysis
Flexible Electrical Networks
Smart Electrical Networks and Systems
D.C. Currents and D.C. Voltages

Varying Currents and Voltages
Properties of Networks
Magnetic Coupled Inductors and Transformers
Three-Phase Systems
Fourier Series
The Complex Frequency
Two-Ports and Filters
Networks Containing Switches
Computer Aided Analysis of Electrical Networks
