

# CALL FOR PAPERS

**ICFDT 2020**  
**Jul 14-15, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFDT 2020 : International Conference on Food and Dairy Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Food and Dairy Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Dairy Products  
Food and Dairy Technologies  
Functional ingredients from permeates and acid whey  
Milk composition, structure, and formation  
Lactose, lactose derivatives and oligosaccharides  
Protein preparations  
Fermented milks  
Protein stability during processing and storage

Milk protein ingredient functionality  
Utilising protein aggregation and separation technology  
Role of milk protein in muscle mass  
Interactions between proteins and bacteria  
Structure/function relationships for protein in cheese  
Design and manufacture of improved foods and dairy ingredients  
Diet formulation strategies  
Cheese making, manufacture, and processes
