

CALL FOR PAPERS

ICAMME 2020
Jul 16-17, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMME 2020 : International Conference on Advances in Magnetic Materials Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Magnetic Materials Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Magnetic materials
Magnetic domains and hysteresis
Observation of magnetic domains
Hard magnetic materials and applications
Soft magnetic materials and applications
Magnetic recording, memories and spintronics
Magnetic thin films

Functional magnetic materials
Magnetic particles and nanostructures
Fundamental magnetic properties and co-operative phenomena
Novel magnetic materials and device applications
Modeling and simulation in magnetic materials
Magnetism, magnet industry-product and marketing
