

CALL FOR PAPERS

ICCDS 2020
Jul 16-17, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCDS 2020 : International Conference on Circuit Dynamics and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Circuit Dynamics and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Circuits, devices and systems
Smart grid and circuit
Signal and multimedia processing
Computers, software and applications
Ocean engineering and marine technology
Computers, software and applications
Biomedical electronics and bioinformatics
Communication engineering
Electronics and electrical engineering
Computer science applications
Nano electro mechanical System
Photonics and optoelectronics
Networking, communication and multimedia

Information engineering
Wireless/Mobile communication and computing
Software specification and software assurance
Analysis of power quality and system stability
Assembly and packaging
Analog circuits and digital circuits
Antenna and propagation
Electric energy processing
Electromagnetic and photonics
Electro-optical phenomena of semiconductors
Power electronics and energy systems
Signal processing
Techniques of laser and applications Of electro-optics
