

# CALL FOR PAPERS

**ICEFGCM 2020**  
**Jul 16-17, 2020**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEFGCM 2020 : International Conference on Environmentally Friendly Geopolymer Composites and Materials is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmentally Friendly Geopolymer Composites and Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmentally friendly geopolymer composites  
Green and durable geopolymer composites  
Reinforced geopolymer composites  
Geopolymer composites  
Alkali-activated materials

Sustainability of geopolymer composites  
Concrete applications of geopolymer composites  
Structural, microstructural and physico-mechanical characteristics of geopolymeric composites  
Waste stabilization and inertization
