

# CALL FOR PAPERS

**ICFMMM 2020**  
**Jul 16-17, 2020**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMMM 2020 : International Conference on Functional Magnetic Molecular Materials and Ferromagnets is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Functional Magnetic Molecular Materials and Ferromagnets. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Transition metal chemistry  
Lanthanides and actinides  
Multifunctionality  
Magnetism  
Nanomagnets  
Ferromagnets

Bottom-up approach  
Crystal engineering  
Photo-switching  
Molecular magnetism  
Spin crossover materials  
Magnetic coordination materials
