

CALL FOR PAPERS

ICGGEP 2020
Jul 16-17, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGGEP 2020 : International Conference on Greenhouse Gases and Environmental Problems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Greenhouse Gases and Environmental Problems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Greenhouse warming
Greenhouse gases and global warming
Global warming and climate change
The buildup of greenhouse gases
Projections of future human-induced greenhouse warming
Climate monitoring and prediction
Greenhouse gases
Role in climate change
Predicting future warming

Potential effects of global warming
Global warming solutions
Energy solutions
Vehicle solutions
Forestry solutions
Agricultural solutions
Causes and effects of global warming
Greenhouse-gas emission targets for limiting global warming
