

# CALL FOR PAPERS

**ICSUSM 2020**  
**Jul 16-17, 2020**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSUSM 2020 : International Conference on Sustainable Urban Stormwater Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Urban Stormwater Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Urban stormwater management  
Sustainable urban stormwater management  
Innovative approaches to urban stormwater management  
Urban stormwater management to protect stream ecosystems  
Green stormwater management  
Types and purposes of green stormwater management

Design of storm drainage systems  
Storm water management regulations  
Water treatment devices  
Structural storm water management systems  
Installation, inspection, and maintenance of storm water management
