

CALL FOR PAPERS

ICTIM 2020
Jul 16-17, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTIM 2020 : International Conference on Transportation Informatics and Modeling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Transportation Informatics and Modeling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Transportation informatics
Road transportation informatics
Sustainable logistics and strategic
transportation planning
Data analytics for intelligent
transportation systems
Artificial intelligence techniques
in transportation studies
Big data analytics for
transportation and logistics
Big data analytics in
transportation operations

Informatics utilization in public
transportation
Applications of analytics to
transportation safety
Big data analytics in
transportation safety
Connected vehicles and big data
applications
Urban and regional information
systems
Urban traffic systems
