

# CALL FOR PAPERS

**ICUDAT 2020**  
**Jul 16-17, 2020**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUDAT 2020 : International Conference on Urban Data Analysis and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Data Analysis and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Urban data analysis  
Urban big data development  
Features of urban big data  
Categorization of urban big data  
Quality issues in urban data  
Applications of urban big data in urban development

Big data and smart cities  
Methods and methodologies for urban research  
Spatio-temporal urban data analysis  
Interactive visual systems for urban data analysis  
Data mapping and visualization  
Data and technology in architecture and urbanism
