

CALL FOR PAPERS

ICACDM 2020
Jul 27-28, 2020
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACDM 2020 : International Conference on Agricultural Chemical Drift Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Chemical Drift Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural chemicals
Product safety, transport, storage and disposal
Agricultural chemical resistance
Application technologies
Spray application equipment
Agricultural chemical drift management
The law and agricultural chemicals
Management practices for agricultural chemicals
Integrated pest management

Regulatory control
Detection, analysis and risk assessment
Agrochemicals and ecology
Impact of agricultural pesticides on water quality
Agricultural emissions and the atmosphere
Agricultural chemical utilization
Human health effects of agricultural chemical
Environmental and health risks
Toxic action and human exposures
