

# CALL FOR PAPERS

**ICAIAP 2020**  
**Jul 27-28, 2020**  
**Zurich, Switzerland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAIAP 2020 : International Conference on Agricultural Infrastructures and Agricultural Production is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Infrastructures and Agricultural Production. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural engineering  
Agricultural science  
Agricultural infrastructure  
Agricultural infrastructure improvement  
Infrastructure vulnerability  
Input based infrastructure  
Resource based infrastructure  
Physical infrastructure  
Institutional infrastructure  
Agricultural product processing  
Agricultural productivity  
Agricultural productivity growth  
Livestock production

Processing of agricultural products  
Water conservation and storage for crop irrigation and livestock production  
Protecting the environment  
Land and water resources  
Construction of agricultural roads  
Water reservoirs, warehouses and other structures  
Pollution control at large farms  
Developing new forms of biofuels from non-food resources  
Algae and agricultural waste  
Plant protection and fertilization  
Plants, seeds and propagation materials  
Waste management  
Design of agricultural machinery, equipment, and agricultural structures
