

CALL FOR PAPERS

ICESGG 2020
Jul 27-28, 2020
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESGG 2020 : International Conference on Commercial and Experimental Sol-Gel Glasses is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Commercial and Experimental Sol-Gel Glasses. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sol-gel glasses
Commercial and experimental sol-gel glasses
General-purpose sol-gel glasses
High strength sol-gel glasses
Sol-gel glass chemical compositions
Sol-gel glass manufacturing and production
Sol-gel synthesis
Recycling and reuse of sol-gel glasses
Sol-gel glass reinforcement
Sol-gel glasses for engineering applications
Atomic structure and structural stability of sol-gel glasses
Structural modeling of sol-gel glasses

Sol-gel glasses as precursors of bioactive glass ceramics
Bioactive sol-gel glasses
Sol-gel preparation of silica glass
Optical and electronic phenomena in sol-gel glasses
Sol-gel glass properties
Physical properties of sol-gel glasses
Chemical resistance of sol-gel glasses
Electrical properties of sol-gel glasses
Thermal properties of sol-gel glasses
Optical properties of sol-gel glasses
Radiation properties of sol-gel glasses
Mechanical properties of sol-gel glasses
