

CALL FOR PAPERS

ICCGG 2020
Jul 27-28, 2020
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCGG 2020 : International Conference on Clinical Genetics and Genomics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Clinical Genetics and Genomics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Clinical genetics
Genetic diseases and disorders
Genetic assessment
Chromosomal analysis
DNA structure and gene expression
Gene mapping and molecular pathology
Molecular analysis of mendelian disorders
Treatment of genetic disorders

Linking genetic variations to disease
Genome rearrangements and disease
Epigenetics and disease
The translation of genotype to phenotype
Genetics of complex disease
Management/intervention of genetic diseases
Novel therapies for genetic diseases
Developmental biology and clinical genetics
