

CALL FOR PAPERS

ICICPSCP 2020
Jul 27-28, 2020
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICICPSCP 2020 : International Conference on Intelligent Cyber-Physical Systems and Crop Production is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Intelligent Cyber-Physical Systems and Crop Production. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intelligent cyber-physical systems
for agricultural applications
Cyber-physical systems
Agricultural robotics
Artificial intelligence
Image processing
Plant phenomics

Crop production
Smart monitoring of crop
production
Smart field monitoring
Precision livestock farming
Expert systems for animal
production
