

CALL FOR PAPERS

ICMTMP 2020
Jul 27-28, 2020
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMTMP 2020 : International Conference on Microbial Technology and Microbial Processes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microbial Technology and Microbial Processes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Enzyme and microbial technology
New approaches to enzyme and microbial technology
Microbial engineering for production of chemicals and pharmaceuticals
Recent advances in biochemical techniques
Microbial physiology, metabolism and gene expression

Biocatalysts, synthetic biology and biotechnology
Biotechnological production of new bioactive molecules, biomaterials, biopharmaceuticals, and biofuels
New imaging techniques and biosensors
New biotechnological approaches in genomics, proteomics and metabolomics
Metabolic Engineering, biomolecular engineering and Nanobiotechnology
