

CALL FOR PAPERS

ICBEST 2020
Aug 06-07, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBEST 2020 : International Conference on Battery Energy Storage Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Battery Energy Storage Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Battery energy storage
Battery energy storage for grid stabilization
Battery energy storage for grid-scale applications
Battery management system for grid-scale applications
Battery energy storage technology for power systems
Battery storage systems for electricity technology
Battery energy storage for microgrids

Battery engineering and technology
Battery systems
Stationary battery systems
Production and recycling of battery systems and cells
Lithium ion cells
Lithium-ion technology
