

# CALL FOR PAPERS

**ICMASAWSWU 2020**  
**Aug 06-07, 2020**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMASAWSWU 2020 : International Conference on Model Application for Sustainable Agricultural Water and Sustainable Water Use is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Model Application for Sustainable Agricultural Water and Sustainable Water Use. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Field-scale to regional-scale  
management of agricultural  
water-resources  
Sustainable agricultural  
water-management under climate  
change  
The water productivity of food  
crops and bioenergy crops

The management of salinity in  
irrigated agriculture and the use  
of saline water for crop growth  
Water reuse and wastewater for  
irrigation  
The environmental effects of  
agricultural water use and  
management
