

CALL FOR PAPERS

ICCME 2020
Aug 21-22, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCME 2020 : International Conference on Chemical and Molecular Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemical and Molecular Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Analytical Chemistry
Advanced materials processing
Biotechnology and Biochemical Engineering
Biochemical and biomolecular engineering
Bioengineering and biomedical engineering
Biological and Medicinal Chemistry
Biotechnology
CO₂ Capture and Sequestration
Catalysis
Chemical reaction engineering
Chemical engineering equipment design and process design
Clean Coal
Inorganic Chemistry

Heavy Oil and Oil Sands
Macromolecular Science and Engineering
Materials Chemistry
Organic Chemistry
Physical, Theoretical and Computational Chemistry
Process Safety Management
Rubber
Surface Science
Systems and Control
Green Chemistry
Energy and Environment
Food process technology and engineering
Forest product processing
