

CALL FOR PAPERS

ICGNSSN 2020
Aug 21-22, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGNSSN 2020 : International Conference on Global Navigation Satellite Systems and Networks is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Global Navigation Satellite Systems and Networks. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Global Navigation Satellite Systems (GNSS)

Emerging application areas for GNSS
National positioning infrastructure
Key industries and their reliance on GNSS
Policies and standards
Aviation and avionics
GNSS augmentation including SBAS
Cooperative intelligent transport systems
Datums and geodesy
Embracing the multi-GNSS era
Machine guidance in agriculture
Construction and mining
National and International GNSS

Developments

Maritime applications
Unmanned aerial systems
GNSS receiver development
Alternatives to GNSS
GNSS vulnerability
Communication satellite systems
Position determination techniques
Technologies: augmented systems
Sensors and embedded system design
GNSS receivers
GNSS/INS integrated navigation
GNSS applications
