

# CALL FOR PAPERS

**ICMCBGC 2020**  
**Aug 21-22, 2020**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCBGC 2020 : International Conference on Mobile and Cloud-Based Geospatial Computing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mobile and Cloud-Based Geospatial Computing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mobile geospatial computing	
Geospatial computing in mobile devices	
Geospatial analysis	
Mobile geomatics	
Geospatial information technologies	
Traditionally geospatial computing	
Geospatial information technologies for mobile field data collection	
Capturing and processing geospatial information in the field	
Local processing of geospatial information on mobile devices	
Cloud-based geospatial computing	
	Developing mobile geospatial web applications
	Positioning
	Presentation
	Spatial selection
	Environment model
	Mobile geospatial applications
	Local visibility model
	Occlusion detection
	Geospatial user interfaces
	Limitations
