

CALL FOR PAPERS

ICMEMS 2020
Aug 21-22, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEMS 2020 : International Conference on MEMS is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of MEMS. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microelectromechanical systems
Microsensing, microactuation,
micromechanics, and microdynamics
Materials for MEMS manufacturing
MEMS basic processes
MEMS manufacturing technologies
Applications of MEMS
Micromechanics

Microdynamical systems
RF MEMS
MEMS with functional interfaces to
biosystems and to the environment
Micro- and nanofabrication
technologies
Materials properties and functional
materials for MEMS
Phenomena pertinent to MEMS designs
and performance
