

# CALL FOR PAPERS

**ICCMEMB 2020**  
**Aug 13-14, 2020**  
**Lagos, Nigeria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMEMB 2020 : International Conference on Concepts, Methods and Experiments in Modern Biology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Concepts, Methods and Experiments in Modern Biology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Modern biology  
Mathematical concepts and methods  
in modern biology  
Experimental basis of modern  
biology  
Modern biology and technology  
Eugenics and modern biology  
Experiments in modern biology  
Philosophy of modern biology  
The science of life  
The chemistry of life  
Biochemistry  
Cell structure and functions  
Homeostasis and cell transport  
Photosynthesis

Cellular respiration and  
production  
Fundamentals of genetics  
Dna, rna, and protein synthesis  
Gene expression  
Inheritance patterns and human  
genetics  
Gene technology  
Population genetics and speciation  
Populations, community ecology, and  
ecosystems  
Bacteria, viruses, protists, and  
fungi  
Plant evolution and  
classifications  
Plant structure and function  
Plant production  
Plant responses
