

# CALL FOR PAPERS

**ICCECBP 2020**  
**Aug 20-21, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCECBP 2020 : International Conference on Cellular Engineering, Cell Biology and Processes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cellular Engineering, Cell Biology and Processes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cellular engineering  
Cellular engineering and applications  
Advances in cellular engineering  
Cell structures and functions  
Tissue engineering and biomaterials  
Engineering principles and modeling  
Cytomechanics and receptor/ligand binding  
Genetic engineering, enzyme kinetics, and metabolic pathway engineering

Cell biology and processes  
Mechanics of cells and subcellular elements  
Flow, hydrostatic pressure, tension, torsion, flexure, and combined loads  
Receptors, ligands, and interactions  
Gene transfer techniques and genetic engineering  
Enzyme kinetics  
Metabolic pathway engineering
