

# CALL FOR PAPERS

**ICDAMME 2020**  
**Aug 20-21, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDAMME 2020 : International Conference on Development and Applications of Micro Manufacturing Equipment is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Development and Applications of Micro Manufacturing Equipment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer-Aided Design and Manufacturing  
Computer-Integrated Manufacturing Systems  
Flexible and Distributed Manufacturing Systems  
Intelligent Systems in Machine Design and Production  
Emerging Technologies in Design and Manufacturing  
Hybrid Macro/Meso/Micro Manufacturing Processes  
Thermally-Enhanced Manufacturing  
Micro-Manufacturing and Fabrication of Sensors  
Communication Systems and Distributed Control in Manufacturing Enterprises  
Collaborative and Digital Manufacturing for Advancing Product Quality

Diagnostics, Performance Prediction and Decision Making for Intelligent Maintenance of Manufacturing Systems  
Advances in Quality Control in Multistage Manufacturing Systems  
Nanomanufacturing  
Biomedical Manufacturing  
Nanomanufacturing Processes and Systems  
Development and Applications of Micro Manufacturing Equipment  
Design and Operations of Manufacturing Systems for Responsiveness  
Advances in Metal Forming  
Fracture Reliability of Fabricated Materials
