

CALL FOR PAPERS

ICFMSPP 2020
Aug 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMSPP 2020 : International Conference on Flexible Manufacturing Systems and Production Planning is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Flexible Manufacturing Systems and Production Planning. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Manufacturing engineering
Manufacturing practices
Flexible manufacturing
Flexible manufacturing system
Manufacturing flexibility
Manufacturing systems
Design of flexible production systems
Production planning
Flexible production
Recent developments
Global economy
Lean systems
Modeling, simulation and control

Analysis of performance measures
Multiple machines
Material handling system
Advantages
Disadvantages
Flexibility
Industrial communication
Research, design and development of systems
Processes, machines, tools and equipment
Modern developments
Modern tools
Mechanics
Automation
