

CALL FOR PAPERS

ICHER 2020
Aug 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHER 2020 : International Conference on Industrial Hygiene Engineering and Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Hygiene Engineering and Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial hygiene engineering
Recognition of health hazards
Methods for measuring and
evaluating health hazards
Human systems and human resource
science
Industrial toxicology and chemical
hazard analysis
Principles, standards and
procedures for industrial hygiene
engineering
Occupational safety and health
references
Industrial ventilation and
ventilation system design

Airborne contaminants and
chemicals
Air-cleaning and air-moving
devices
Environmental air pollution
Sound pollution and problems of
sound in industrial environments
Noise control technologies
Industrial illumination and light
pollution
Radiation and radiation pollution
Infection control and
decontamination
