

CALL FOR PAPERS

ICLSEMSEP 2020
Aug 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLSEMSEP 2020 : International Conference on Large-Scale Ecology, Model Systems and Ecological Patterns is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Large-Scale Ecology, Model Systems and Ecological Patterns. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Large-scale ecology
Large-scale processes in ecology
and hydrology
Large-scale ecological patterns
Large-scale ecology and model
systems
Spatial patterns of large-scale
vegetation
Large-scale ecology and hydrology

Large-scale ecology and
conservation biology
Large-scale ecological restoration
of high-diversity tropical forests
Human impacts on ecosystems
Biogeographic responses to climate
change
Future directions
