

CALL FOR PAPERS

ICMBE 2020
Aug 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMBE 2020 : International Conference on Mathematical Biology and Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mathematical Biology and Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biofluids	Computational and Systems Biology
Bioinformatics	Computational Biology
Biological data mining	Computational drug discovery
Biomedical applications	Computational ecology
Biomedical literature text mining	Computational neurobiology
Biometrics	Computational proteomics
Cancer Modelling	Constraint satisfaction
Cancer Therapies	Data management methods and systems
Cell Biology	Data visualization
Cellular Dynamics	Databases
Clinical informatics	Development control
Combinatorics	Developmental Biology
Comparative genomics and annotation	Differential Equations Applied to Mathematical biology
