

CALL FOR PAPERS

ICMGMM 2020
Aug 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMGMM 2020 : International Conference on Mobile Geomatics and Mobile Maps is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mobile Geomatics and Mobile Maps. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mobile geomatics
Mobile mapping
Advances in mobile mapping
technology
Field data collection and geomatics
Mobile maps
The analysis of smartphone apps in
geomatics
Geomatic technologies
Geoinformation and geomatics
engineering
Mobile sensing and geodata science
Use of mobile devices for
e-learning in geomatics
Small and low-cost mobile mapping
systems
Ubiquitous positioning and mobile
location-based services
Mobile device apps suitable for
geomatics

Geo-spatial data
Low-cost mobile mapping systems
Practical experiences
Mobile mapping system components
Cameras
Geo-referencing devices
Inertial sensors
Digital compasses
Sensor integration
Mobile geospatial computing
Geospatial computing in mobile
devices
Local processing of geospatial
information on mobile devices
Cloud-based geospatial computing
