

CALL FOR PAPERS

ICNRCBA 2020
Aug 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNRCBA 2020 : International Conference on Nanofiber Reinforced Composites for Biomedical Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanofiber Reinforced Composites for Biomedical Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanofiber reinforced composites
Metallic nanofiber composites
Functional nanofibers
Electrically conductive carbon
nanofiber composites
Classification of nanofiber
composites
Properties of nanofiber composites
Fabrication methods of nanofiber
composites
Characterization techniques of
nanofiber composites
Biomedical applications of
nanofiber composites
Clinical translational aspects of
nanofiber composites
Commercial aspects of nanofiber
composites
Nanofiber reinforced composites
Nanofiber reinforced composite
material evaluation and processing

High performance nanofiber
reinforced composites
Nanofiber reinforced composites for
engineering applications
Tensile and compression properties
of nanofiber reinforced composites
Mechanical and dynamic mechanical
analysis of nanofiber reinforced
composites
Commercial and experimental
nanofiber reinforced composites
High strength nanofiber reinforced
composites
Atomic structure and structural
stability of nanofiber reinforced
composites
Structural modeling of nanofiber
reinforced composites
Classification of nanofiber
reinforced composites
Processing, markets and
applications of nanofiber
reinforced composites
Natural and synthetic fibers for
nanofiber reinforced composites
Structure of nanofiber reinforced
composites
