

CALL FOR PAPERS

ICPEDCamm 2020
Aug 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPEDCamm 2020 : International Conference on Pavement Engineering, Design, Construction, Analysis, Monitoring and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Pavement Engineering, Design, Construction, Analysis, Monitoring and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Pavement engineering
Infrastructure and pavement engineering
Design and maintain flexible and rigid pavements
Materials technology
Soils, hydraulics, and material properties
Rehabilitation and maintenance of pavements
Testing techniques
Manufacturing processes
Construction techniques

Waste materials
Government policy
Utilization
Asphalt and concrete pavement technology
Composite pavement technology
Highway pavements, design and maintenance
Road base materials
Highways and road bridges
